

# FROM GOOD HOMES

## COOL ME DOWN

(Music: From Good Homes/Lyrics: Todd Sheaffer)

she knows when the devil starts  
a burnin fire inside of me  
she knows how to take the heat  
how to take the heat away from me

when I need it  
when I need it  
when I need it  
she's there to cool me down

she knows when I've had too much  
still the devil's hand is temptin me  
she knows how to get through to me and  
tell me ya know  
some things are not worth the trouble

when I need it  
when I need it  
when I need it

she's there to cool me down

she knows when I'm feelin like  
my world is at a desperate end  
she knows how to comfort me  
she is there for me  
she points me toward another day

when I need it  
when I need it  
when I need it  
she's there to cool me down
