

FROM GOOD HOMES

HOMELAND SECURITY

(Music: From Good Homes; Lyrics: Todd Sheaffer)

Do you wanna join the H.O.M.E. team
Honoring Our Mother Earth?
Be the keeper and care for the water and air
You know what it's worth
Do you wanna save the homeland?
You know how much it means
They're forming a front, taking the brunt to stop the machine

Half a mile away they're singing in the sun
Half a mile away they dance and they pray
The fight has begun

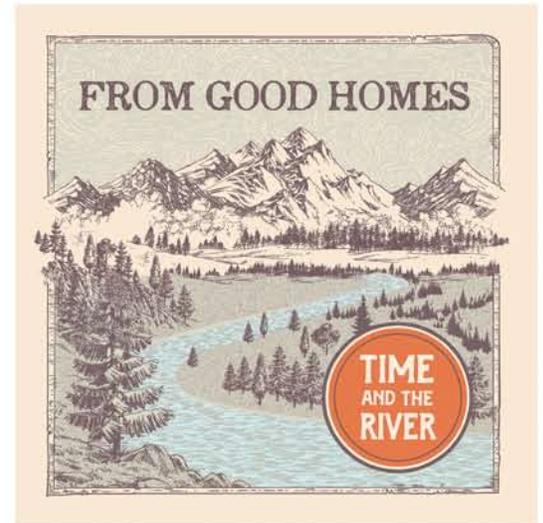

Do you wanna save the homeland?
Then we saddle up and go
To where they're standing like a rock, fighting the clock
In the ice and the snow
Do you love the mystic mountains and the silver waterfall
The canyon of rock, the flight of the hawk and the coyote call

Half a mile away the digging has begun
Half a mile away they're stealing our days
Our moon and our sun

They're laughing down in Texas as the tanks and armor roll
Counting the barrels, counting the cash, the silver and gold
Do you wanna join the H.O.M.E. team?
Then we saddle up and ride
Defend our mother earth, you know what it's worth
It's time we decide

Half a mile away the digging has begun
Half a mile away they're stealing our days
Behind the guard and a gun

Still fighting
Still fighting the war
