

FROM GOOD HOMES

WAKE

(Music/Lyrics: Todd Sheaffer)

She says wake
to your finest hour,
To your finest day
to the higher power

In yourself are the things that matter
Bring them to the light
And the rest will fall in place
she says, and I think she's right

She says raise up
to your finest hour
to your finest day
to the higher power

In yourself
find the vital signs
Bring them to the light
And the rest will fall away
she says , and I think
she's right

Oh people
pattern
feel them
pilgrim

Face the change
Oh people
patterns...
feel them...
Face the change...

She says wake
to your finest hour
to your finest day
to the higher power

in your life
find the things that matter
bring them to the light
and the rest will fall in place
she says , and I think she's right
oh I think she's right
